

N6, S, Mg, Mn, Zn, Cu

MultiExtra is a liquid foliar product specifically for calcareous soils deficient in available copper, manganese and zinc. Also containing amino nitrogen and magnesium that increases uptake in the leaf. **MultiExtra** can be applied to all crops during the establishment phase to aid winter hardiness, rooting and growth.

Product application

Barley: 3-5 L/Ha in 100 L/Ha water

Oilseed rape: 3-5 L/Ha in 100 L/Ha water

Wheat: 3-5 L/Ha in 100 L/Ha water

Timing: From 3 leaves through to mid tilling or as necessary.

Compatibility: **MultiExtra** is a highly compatible product that can be mixed with most fungicides. Do always seek confirmation about your requirements before using.

Analysis

Total Nitrogen (N) 6.0 %

Amide Nitrogen (N) 6.0 %

Sulphur (SO₃) 10.0 %

Manganese (Mn) 3.7 %

Zinc (Zn) 3.0 %

Magnesium (MgO) 1.6 %

Copper (Cu) 1.0 %

Benefits of MultiExtra

- ✓ Contains a balanced amount of copper, manganese and zinc in the correct ratios necessary for plant utilisation.
- ✓ Aids in crop establishment, rooting and winter hardiness.
- ✓ **MultiExtra** benefits high pH soils that are limited in copper, manganese and zinc availability.
- ✓ The unique process of production via the *Flex Fertilizer System ApS* creates a true amino complex that increases the uptake and efficiency of trace elements to the crop.

Important

Speak to your advisor regarding product mixes. May not be compatible with other products (please ask for compatibility recommendations). Always clean equipment thoroughly before and after each use, using plenty of water to avoid adverse product reactions.

Storage

Min. storage temp 0.0°C Keep container tightly closed in a cool, well-ventilated place. Keep away from heat sources. Keep only in original packaging. Protect from frost. Keep away from food and feedstuffs.
